**Some examples of the design studios conducted at ENSAS in recent years, specifically with an international focus.**

## Semester 1

### Euro-Asian design studio

This studio is part of a comparative Europe / Asia perspective of issues and project approaches related to spatial and societal developments in contemporary metropolises. In collaboration with CAUP Tongji Shanghai.

### Complex densities India

The population density and the changes in the urban fabrics of Indian metropolises, provides a stimulating framework for experimenting with a parametric approach to the project

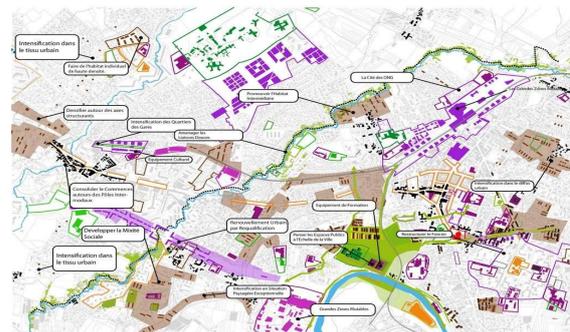

### Rhine design studio

This studio will explore density and verticality through design of small, medium and high-rise towers in the most symbolic and compact region on the French/ German border: mirroring the Porte de France and Kehlhattan on either side of the Rhine.

### Cross border urban studio

Initiate through a interdisciplinary project an approach at the urban and architectural scale, developing an innovative urban project strategy that responds to the evolution of contemporary territories and the complexity of changing urban landscapes. In the European context, this complexity is even more palpable when working in cross-border territories and in particular on the future of the Euroregions.

## Semester 2

### International design studio (Bruxelles, Bucarest and Marseille)

### International urban studio (Oran – Algeria)
