- Possibility to influence each attack vector by interacting with the environment

# Game Description

## - Enemy types

- Hound  
(fast / fighter)
- Souldier  
(medium speed / fighter & destroyer)
- Golem  
(slow / destroyer)

# Game Description

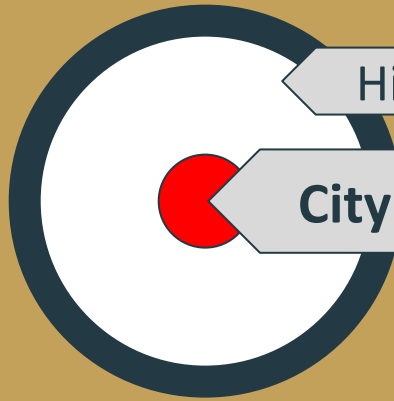

## - Game Loops

- Short Term:
  - Fighting against enemies
- Medium Term:
  - Decide on upgrades for your troops
  - Limiting attack vectors for enemies
  - Building defensive structures
- Long Term:
  - Balance reward for undamaged houses vs simplicity

# Technical Achievement

- Interaction between multiple systems
  - AI (path planning and decision making)
  - Destruction
  - Player
- Lava simulation
- Immersive shaders
  - Lava FX
  - terrain blending for debris

# "Big Idea" Bullseye

Highly interactive environment

**City defense with strategic destruction**

# Development Schedule

## - Layered Development Description

- Functional minimum
  - Controllable character (walking around and shooting fireballs)
  - Attacking enemies
  - Win/Lose condition: mystical power source
- Low target
  - Structures (houses, trees, etc) can be destroyed
  - Controllable destruction
  - Level/City design
  - Smart enemies (path planning)
  - Score system

# Development Schedule

## - Layered Development Description

- Desirable target
  - More possibilities of shaping the path of the enemies by placing oil traps, spikes etc.
  - Some functional buildings (like smithy, barracks, ...)
  - Enemies with different priorities (destroy buildings or find path to center)
- High target
  - Different enemy types (Fighter/Destroyer)
  - Controllable minions fighting on your side
  - Additional spells (aoe and healing spell)
  - Additional strategic possibilities
    - Blow up the bridge
    - Let lava flow from the mountain into the city

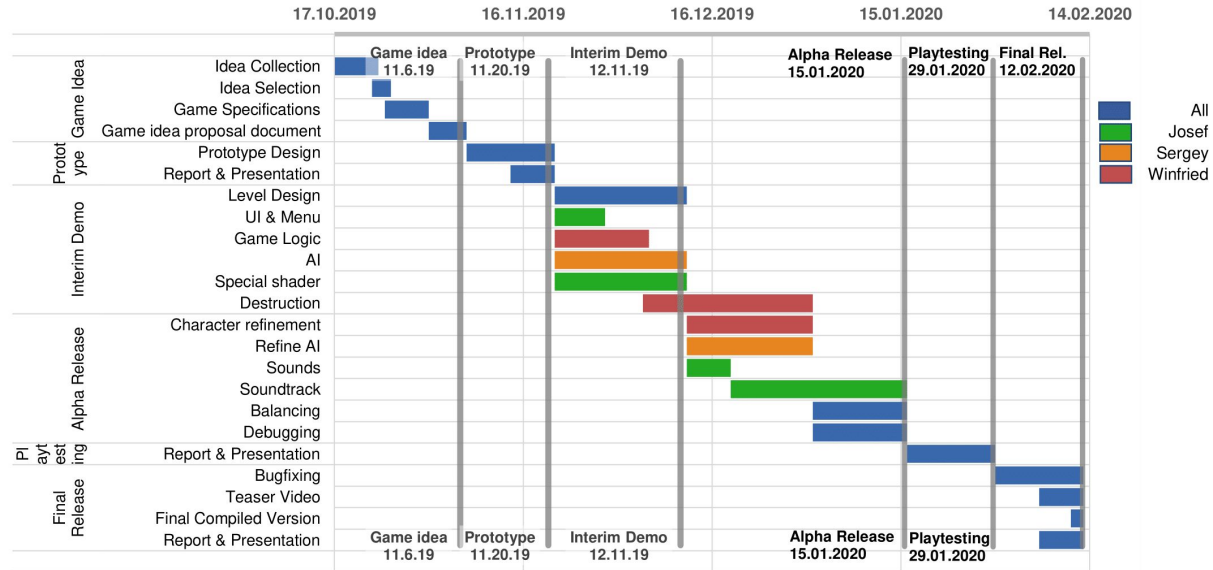

# Development Schedule

## - Layered Development Description

- Extras
  - Campaign where the outcome of previous defenses influence the upcoming attacks
  - Multiple heroes
  - Skill trees
  - Customization (Hats, ...)
  - Multiplayer

# Development Schedule
