**Betreff:** Your Erasmus Stay 2023/24 - Moodle Course Login

Dear Students,

you have been selected by your TUM department for a stay abroad within the Erasmus program (Erasmus spot and Erasmus grant) for the academic year 2023/24. Congratulations!

In order to provide you with the best possible support, we have created a **TUM Erasmus Moodle course**: [Erasmus Outgoing 2023/24](#).

There you find all relevant information, To Do's and deadlines to be eligible for the Erasmus spot and the Erasmus grant.

This Moodle course will be regularly updated with further information (e.g. grant amount/ grant agreement templates, etc.). Make sure to regularly log in to keep yourself updated on important information.

### **Information platform:**

Please enroll yourself in the Moodle course right away and keep yourself informed with the information provided in the course during the whole Erasmus stay.

All **mandatory tasks** can be checked in the Moodle course tabs: **before mobility, during mobility, after mobility**. For completing these tasks, please **only use the links** you will find in the **Moodle** course!

Additional information and **frequently asked questions** can be found in the section "FAQ"

### **Next steps:**

- Get enrolled in the Erasmus Moodle course. **Password** (Einschreibeschlüssel): **MyErasmus2023!**
- Check all tasks and lessons "**before mobility**" and start preparation
- Register at partner university after nomination by your TUM department (stays starting in summer term 2024 will be nominated at a later time)

### **Contact persons:**

- If you have further questions regarding the nomination, course selection or Online Learning Agreement, please refer to your [TUM Departmental Coordinators](#)
- Questions related to the Erasmus grant will be answered by us: the [Erasmus Coordinators of the TUM Global & Alumni Office](#)

We hope that the current health and safety situation in Europe will remain stable by the start of your semester abroad. The **decision and responsibility** to start a **planned stay** abroad **is yours**.

Please find out what the situation is like in your future host country before starting with the organizational preparations. Should you enter into financial obligations, we recommend that you insure risks as best as possible (e.g. cancellation insurance), as we cannot guarantee reimbursement of costs or payment of the Erasmus+ grant from

the Erasmus+ program in the event that your stay is interrupted / not started.

Please note that the situation in your host country can change continuously. Use the regularly updated information from the authorities, in particular the relevant travel advice from the [Federal Foreign Office](#) as well as from the [Robert Koch Institute](#). The authorities are in constant contact and continuously evaluate the latest developments. When preparing your stay abroad, we ask you to consider this and the travel and safety information for stays abroad (see attachment).

All the best to you and most of all, stay healthy.

Your Erasmus+ Outgoing Team
