

Involvement in the academic environment of TUM

Name Doctoral Candidate: _____

Chair: _____

Name Supervisor: _____

In order to ensure involvement in the **academic environment of the TUM**, a time frame of around 20% of the minimum membership time was recommended in the supervision agreement.

Within the doctoral studies, the doctoral candidate has been involved in

- attendance at the TUM or at a partner institution (public academic research institution recognized by the GC-ED) and/or
- teaching at TUM (courses of all kinds, supervision of theses) and/or
- collaboration in a TUM's research group.

Write a self-report about your involvement in the academic environment of TUM in the text field (max. 2500 characters)! Explain which activities you have specifically carried out and indicate how long they lasted! If you need more space, feel free to use another page.

Please answer the following questions (in bullet points - max. 450 characters per answer)!

In what ways have I benefited from my connection to TUM? What helped me, what were the success factors?

Which standards and working methods I got to know at my supervisor's institute were particularly valuable for my professional or personal development?

Which facilities and services outside the institute's boundaries have I used and experienced as beneficial?

How was I able to expand my personal network through the connection to TUM? Were there also points of contact for collaborations beyond the doctorate?

In what ways could I particularly contribute to the work of the Chair?

_____, _____

Doctoral Candidate

As the supervisor, I hereby confirm to the GC-ED that the above-described involvement took place with the doctoral candidate.

_____, _____

Supervisor
