

# Clirty

Clean or Dirty

Albert Zach, Sahin Er, Daniel Ziese, Matthias Hainz

# Game Idea

- Competitive cleaning/dirtying game
- One team keeps order and the other causes chaos
- Online multiplayer

# Theme

- Met through the overall topic: “Chaos vs. Order”
- Differences in shapes and patterns
- Mini Game

# Concept vs. Actual Design

- Concept Art kept as Pictures in Lobby
- Changed from local and online to online only

# Gameplay changes

- No constant passive coloring
- More focus on “combat”
  - Stun enemies
  - Four shots at a time
  - Decide on whether to use ability for coloring or for hitting enemies - or both

# Major challenges

- Networking
  - Don't send too much data
  - Only send primitive data types
  - Keep clients synchronized with each other
  - Slowing down debugging/testing

# Major challenges

- Grid
  - High resolution
  - Animated drawing -> Lots of updates
  - Keep score and 3D visualization
  - (Has to be done locally)

# Failures

- Networking is good but sometimes still issues pop up
- UI is still simplistic and bland
- Gameplay of both teams is more symmetrical than originally intended

# Achievements

- Self made 3D models and animations with blender
- Original sound effects
- Somewhat successful online gameplay
- Fun game
