## Leon

- triangle? square?
  - later on more square
- orange, yellow, light blue
  - brown (dark orange/yellow) hair
  - (light?) blue eyes?
- clothes:
  - casual:
    - t shirt of various colors (light blue, white yellow-pattern, often black, white when working)
      - TANK TOP!
    - mostly white, gray black but with little high saturated details
    - more rounded
  - formal
    - more hard edges
    - clean dark gray suit
    - the details are now military markings
    - team difference: his muscular body is visible through the formal clothes i.e. his clothes are a bit to tight and through that less formal
  - combat:
    -
- potential details:
  - he's a mechanic -> dirt hands / clothes? open/scuffed technology
    - all his gear shows signs of him tinkering with it
  - he is PHYSICALLY STRONG, like way stronger than any average person -> tank top -> bandages around the hands?

- V shaped body / strong chest and shoulders?
- square shaped body akin to "Yuji Itadori"
- emphasized shoulders?
- he is actually quite smart and knows a lot science and tech stuff than Lucia and Eliz do (not more than Wilm tho)
- he is impatient and wants to prove himself -> ?
- later on his arm will be the teleportation device
- details:
  - small triangles :0
- fokus:
  - i want you to fokus on his face but that'll happen anyways
    - blue eyes, high detail, messy hair
  - focus on the weapons
    - wherever he modified his weapons they are open and expose a lot of detail
  - focus on the body (eyesus)
    - i want is body and muscles to beak out of his formal clothing a bit
- interesting:
  - well: exoskeleton :)
  - contrast to other characters:
    - melee weapons
    - bulky exotech
    - little actual exo skeleton
- recognizability:
  - spear
  - i want emphasized shoulders i think

## Appearance

Average height, trained body.

Unkept brown hair, no beard, blue eyes

19 years old.

Wears the standard military gear that was given to him with a few modifications. His Exotech is a bit more bulky simply because he can wear that much.

### First impression

A solid Exotech user and his physical strength is impressive, however with such a weak power core for a Exotech user you wonder how useful he will really be.

  - formal:
    - not much different from casual, just more

  - has a round belt you could say. a holder where lots of grenades and other tools are stored
  - green is a lot more prevalent here now due to his weapon but he also dresses in dark green now
  - blue thrusters
